18 Odd Man Out

Sir Laurence Olivier called Charlton Heston the finest actor of his generation. In August, this Hollywood legend stars in the new Disney Channel Premiere Film *The Little Kidnappers*. With unsparing candor—and humor—Heston recounts his life in film *and* discusses his latest role as the stern Scots patriarch James MacKenzie—a role modeled on his memories of his own great-grandfather.

77 The Native Genius of Jim Henson

Jim Henson was a visionary who transformed our lives. Three weeks before his untimely death at age 53, Henson talked with writer Gretchen Haight about his past achievements, his recent alliance with The Walt Disney Company, and the many projects, from films to theme park attractions, arising from that relationship.

OUR READERS WANT TO KNOW

How did the producers of *The Little Mermaid* come up with the name of Ariel for the title character, since the mermaid is not named in Hans Christian Andersen's story? Did they name her after the servant-spirit in Shakespeare's *The Tempest*?

-S.F., Fremont, CA

To get an answer to your question, I called producer Ron Clements, who had the original idea for *The Little Mermaid* as an animated film. Ron tells me that while he had known of the character in *The Tempest*, he did not consciously think of that play when he came up with the character's name. The name Ariel just sounded right to him at the time.

-B.C., Rialto, CA

When the Disneyana Shop opened in 1976, it carried Disney collectibles from the past, but after a few years the focus of the shop was changed when it became too difficult to keep the shop stocked with interesting pieces. Now, the Disneyana Shop specializes in current Disney collectibles, including some items produced exclusively for that shop. There is also a Disneyana Shop at Walt Disney World, which recently moved from Fantasyland to a new location on Town Square.

What happened to the original costumes of the characters from the first year of operation of Disneyland?

—D.C., Mineral Wells, TX When Disneyland opened, they had no character costumes, so costumes for Mickey Mouse,

Mickey and Minnie wore "borrowed" costumes that first year at Disneyland.

Minnie Mouse, and all the gang were borrowed from the Ice Capades, which had a Disney-themed sequence in their show. These costumes were eventually returned and Disneyland created its own costumes for the characters.

Did Walt Disney's wife help to name any other characters besides Mickey, and did she help on any cartoons?

-G.K., Shannon, MS

I don't believe Mrs. Disney named any other character besides Mickey Mouse. (She came up with the name after telling Walt she didn't care for his choice of Mortimer Mouse.) As for her work on Disney cartoons, Mrs. Disney did do some of the inking and painting on the very first Mickey Mouse cartoons.

HOW DISNEY CHARACTERS WENT TO WAR

Fifty years ago, as the turmoil of World War II was beginning in Europe, Walt Disney began receiving requests from military units to design insignias featuring the Disney characters. Walt was pleased to have his artists prepare these insignias as part of his contribution to the war effort. Over the next five years, the Disney studio would create over 1,200 insignias for American and allied units. Donald Duck appeared on many designs—his temper fit him for such a role—but Mickey Mouse was rarely used, except for perhaps a chaplain's group or the Signal Corps. A unit such as the Flying Tigers might have a flying tiger created just for it. These Disney insignias did much to foster good morale during a dark and distressing period.

Relationships CAN I REALLY BE MYSELF WITH MY CHILD?

Today's parents have grown up in an era advocating the "freedom to be me." We've learned to express our anger, tell it as it is, and look out for Number One. Although the radical '60s edict to "let it all hang out" has been tempered to a quieter philosophy of "do your own thing," we still feel an uneasiness about what it means to feel free to be ourselves and at the same time be a good parent. Is there a line to be drawn between being oneself and being a parent—and if so, where does the line fall?

When we ask the question about being ourselves we're obviously not worried about ourselves at our Ph.D., anthropologist and psychotherapist, who was also director of The Parenting Process Project at Cedars-Sinai Department of Psychiatry in Los Angeles. Whether you should be worried or not, however, is the next question. If you're loving and supportive most of the time-and that doesn't mean all of the time-then you probably don't need to worry, according to Kaufman. It may be that you have unrealistically high standards for how you should behave. Some parents think they must be all-embracing, all-loving all the time. They'd do well to remember that it's just fine to be "a good enough parent," as the late Bruno Bettelheim wrote reassuringly in his book of the same title.

If, on the other hand, you know yourself to be quick-tempered, im-

has made a mess or pulled food off the shelf in the supermarket things that are normal for a young child to do—is crossing over the line. So is hitting the child or screaming at him in rage, or abusing him or her in any other way. Books are helpful in giving us information about our child's phase of development, so we can know what's reasonable to expect.

"As a parent you're going to feel angry and frustrated over and over again," she continues, "but if being yourself results in anger that demeans, humiliates, shames or abuses the child, then it has gone too far

"It is not temper which is dangerous," Kaufman says, "but how it is expressed. Count to 20 and find a way to express your feelings about what has made you angry without attacking your child's sense of self. It's better to say 'I don't like what you are doing' than it is to say 'What's wrong with you?', 'That's

Patient, understanding, caring—model TV parents like the Nelsons never seem to stray from perfection. The reality is that mom and dad are only human. However, they can learn to be themselves and be good parents.

best—loving, supportive, imaginative and fun. We're concerned about how much we can show of less desirable traits. Can we afford to be spontaneous when spontaneous sometimes means spontaneously angry or impatient?

I just want to be myself, some parents say. I'm only human, after all. Must I always protect my child by biting my tongue and not getting angry when I feel angry? If I do lose my temper, will it destroy my child?

"If you ask the questions, you're probably worried about yourself as a parent," says Lorraine Kaufman, pulsive, and impatient, you're wise to take a closer look at yourself and think about where and how you want to draw the line limiting your spontaneous reactions. "Remember, you draw that line all the time—with friends, at work, with your mate," Kaufman reminds.

If the goal as a parent is to nurture a child's self-esteem, to enable him to believe in himself, then we draw the line at words or acts that hurt the child, that injure his sense of self-worth. Kaufman gives an example: Calling the child "a bad boy" or "a bad girl" because he

VACATION READING FOR MOM AND DAD

Emperor of the Air by Ethan Canin (Perennial Library, Harper Row, Publishers, \$7.95) Now out in paperback, this best-selling book of short stories about the complexities of family relationships, written by a 28-year-old medical student, captures moments that matter-to a grown son, to a father, or mother-moments sometimes funny, sometimes tender, always exquisite in self-discovery.

MEASLES

With this year's measles epidemic building as the worst since an immunization shot was developed in 1963, it's doubly important for parents to make sure their children are vaccinated. Fifteen months is the usual age for vaccination, although in some areas where there is a lot of the disease, doctors are vaccinating babies as young as six months old. Children are inoculated again when they reach kindergarten age. Babies up to six months old are fairly safe, since they still have persistent antibodies from the mother. To find out where you might get free vaccination, call your county health department.

stupid' or 'You always . . . ""

You can be a good parent and still be "human." "It's not the occasional outburst of irritation from the parent that destroys," Kaufman says, "but consistently letting go with no thought to how what you say affects your child. Then you're not being human, you're being self-indulgent."

Being free to really be yourself with your child includes making the most creative use of yourself. Think about your own childhood and how you felt in various situations. "Look at yourself through your child's eyes," Kaufman advises. "Do you like what you see reflected?"

MRS IRVING'S DELICIOUS SHORTBREAD

"Of course I'll stay to tea," said Anne gaily. "I was dying to be asked. My mouth has been watering for some more of your grandma's delicious shortbread ever since I had tea here before."

—ANNE OF AVONLEA

Ingredients
1 cup softened butter
1/2 cup powdered sugar
2 cups all-purpose flour
pinch of salt
1/4 teaspoon baking
powder

- 1. Preheat the oven to 350°.
- 2. In a large mixing bowl cream the butter with the electric mixer until it is soft, smooth, and fluffy.
- 3. Add the powdered sugar, a little at a time, and beat until smooth.
- 4. Measure and add the flour, salt, and baking powder to a medium-sized mixing bowl. Mix with fork.
- 5. Add the flour mixture to the butter mixture and stir until well mixed.
- 6. Dust a rolling pin and a clean place on the counter with the extra flour. Turn the dough onto the floured surface and roll it out into a large circle—about 1/4 inch thick.
- 7. With cookie cutters cut the dough into any shapes you like.
- 8. With a metal spatula lift the shortbreads onto an ungreased cookie sheet. Place them about 1/2 inch apart. Prick each shortbread twice with a fork and sprinkle with granulated sugar.
- 9. Bake the shortbreads for 20-25 minutes until they turn light brown around the edges.
- 10. With oven mitts, remove the cookie sheet from the oven. With the metal spatula, immediately lift the shortbreads onto a plate.

POISON OAK

The next time you or your children bring home a case of poison oak, here's some information that may put the discomfort in perspective. Research on poison oak is leading to a better understanding of the human immune system and the treatment of viruses.

run my life," says Ann Gambrell, who now, as president of Creative Time-Plus in Torrance, California, organizes everything from people's kitchens to their businesses, and is a frequent lecturer on the subject. Her answer? "Plan, plan, plan. I don't want to sound stuffy," she says, "but I advise setting goals and a schedule—for each day, for the week, and for the year."

There are two reasons why planning is so important. First, there's the obvious fact that it enables you to have more control over time. But second, and even more significant, without a schedule new mothers don't make a strong enough commitment to their own interests and well-being, which results in a feeling of loss of identity.

Starting with the big picture, Gambrell suggests mothers set goals for the next year, whether or not they intend to return to work. If planning to go back to work, decide what you're going to do during maternity leave. If you're not going to work, then set goals for other projects or interests.

To get enough time for yourself, schedule it in. Gambrell suggests that on Sunday evening you make a plan for the next week, setting aside time for pleasurable activities, such as meeting a friend or former co-worker for lunch. having a manicure or a body massage, or going shopping. Incidentally, although Gambrell advises staying in touch with colleagues and keeping up with business interests, especially if you plan to continue working, she doesn't recommend visiting the office. Going back into that world before you return to work can arouse all sorts of uncomfortable feelings, from insecurity about your appearance, because you still haven't lost the last five pounds after the baby's birth, to guilt about not being there at the office now.

Gambrell is also adamant about scheduling time alone with your husband. She cites a couple she knows who always go out to break-

A LESSON IN QUICK GREEN GROWTH

If you're looking for a fun and easy project to help pass the long hot days of summer, give your child a handful of sunflower seeds to plant. Plant them about a half inch deep, a foot apart. They're quick to sprout (usually appear within a week), drought tolerant (don't demand much water), and they offer a jack-in-the-beanstalk-style lesson for the whole family.

fast together on Friday mornings. A teenager stays with the children for an hour and a half before school. They've done it for years, and rarely miss a Friday.

Daily schedules may be the trickiest of all. The most frequent mistake is in making a list of things to do that's too long. To take on cleaning the whole house, for example, is overwhelming, exhausting, and produces a martyr at the end of it all. Much better to plan on doing only two chores a day, like mopping the kitchen and bathroom. "And always make time for yourself-to read, take a nap, or to simply daydream. Think of that time in a positive way: It's not doing nothing; it's taking care of yourself."

A schedule helps the disorganized mother get things done, and it helps the zealous organizer to limit her expectations. Gambrell's role model when her children were young was a neighbor who did chores in the morning, and whatever wasn't done by 11:00 a.m. didn't get done that day. She always had time for her children and for herself.

But what happens when the baby cries all day, and you can do nothing at all? You implement Plan B, which is simply to get through the day. You needn't worry, nothing is lost, Gambrell assures: "Chores always have a way of getting done."

ON THE ROAD . . . WITH KIDS

If your family vacation includes a visit to a big city, you may want to add to your children's enjoyment of the city by giving them one of the new travel guides for kids. Kidding Around in Los Angeles, Kidding Around in New York City, ...in San Francisco, ...in London, ...in Washington, D.C., ...in Atlanta, ...in Boston,

published by John Muir Publications, Santa Fe, NM, are available in bookstores at \$9.95. The books include simple maps to orient the child geographically, information about weather, what to see, where to shop, and calendars of events throughout the year. And it's all written for kids, to involve them in the adventure of travel and to make it their own.

Because that's what a Zizzer Zazzer Zuzz does.

Once your child meets a Zizzer Zazzer Zuzz, he or she will never forget the letter Z! But what the Zuzz really does is tickle your child's fancy. Stimulate curiosity. And turn your youngster on to a lifelong love of reading that will carry all the way from the ABZ's to simple words . . . to complex words . . . to entire sentences!

The Zizzer Zazzer Zuzz is just one of the many colorful characters your little boy or girl will discover in The Beginning Readers' Program, featuring books from Dr. Seuss & His Friends. Now you can treat your child to 8 delightful books — with a comparable retail

value of \$55.60 — for just \$1.99*. You save over \$50.00. And we'll send your child a FREE Cat in the Hat bookrack (worth \$3.50), too.

As a member of *The Beginning Readers' Program*, you'll receive two new Beginner Books every four weeks. Examine them for 10 days. Keep only the ones you want; return any unwanted books at our expense. You may cancel at any time after buying as few as four shipments.

So mail the coupon today and let the Zizzer Zazzer Zuzz start your child on the road to reading success.

Close-Up LEAH PINSENT'S GOOD KARMA

From across the phone line it sounds as if a broken microwave is humming in the background. "Oh, that's just my friend chanting," Leah Pinsent explains, laughing. A recent convert to Buddhism, Pinsent credits her newfound convictions with helping her overcome an extremely shy nature.

Oddly enough, Pinsent's least favorite qualities were exactly the ones that,

made her perfect for the role of Kirsten MacKenzie in *The Little Kidnappers*. "Kirsten is like a part of me that used to exist," Pinsent says. "When I first came to Hollywood I had no money, no car—I'd arrive at auditions all disheveled from riding the bus. And *everyone* is an actor here. If you're not a go-getter you get lost."

With *The Little Kidnappers*, and a few other choice roles to her credit, Pinsent shouldn't have to worry about a mild case of timidity. "I don't take rejection personally anymore," she reflects. "I just persevere and chant to stay peaceful. It's all a matter of karma."

THE LITTLE KIDNAPPERS PREMIERES AUGUST 17.

WHO'S WHO AND WHAT'S WHAT IN JULY AND AUGUST

A Disney Channel Discovery THE WITCHING OF BEN WAGNER

His family has been forced to relocate for his father's new job; his father is on his case about his "negativity" and continual underachieving—young Ben Wagner is

filled with self-doubt and lacking in self-esteem. Until he meets a bewitching girl his age: She's Regina Radford, and local townsfolk claim she and her grandmother—the mysterious "Grammy"—are witches. When Ben suddenly discovers he *can* achieve and excel, there's only one explanation: the two have bewitched him.

The Witching of Ben Wagner is the latest Disney Channel Discovery. Premiering in July, the film is based on the novel by J. M. Ausch. It's a powerful family drama about self-discovery and a lesson in the forms that power—especially one's belief in one's self—can take. Justin Gocke portrays Ben; Bettina Rae is the mysterious Regina. Sam Bottoms and Harriet Hall are Ben's par-

ents George and Kathy, a couple with their own problems to overcome. In a guest appearance, character actress Sylvia Sidney (an acclaimed veteran of stage and screen) plays Grammy.

Special Encore Performances TWO CRITICALLY ACCLAIMED DISNEY CHANNEL PREMIERE FILMS

In July, Goodbye, Miss 4th of July begins a special encore performance. The story of a Greek immigrant family and the racial prejudice they face when they move to a small town in West

Virginia, it stars Roxana Zal, Chris Sarandon and Academy Award winner Louis Gossett Jr.

In August, Kevin Sullivan's (Avonlea) Looking for Miracles returns. It's about a young man, Ryan Delaney, who talks his way

into a job at a summer camp and brings his young brother Sullivan with him. Greg Spottiswood plays Ryan; Zachary Bennett is Sullivan. The two received Emmy nominations for their roles.

The important premier issue

One of childhood's delightful "firsts" in an original sculpture of exceptional charm and realism

It's a big step for a little child. Baby has just gotten her very first pair of shoes. And sure enough, she's already discovered how to take one off. Triumphantly, she holds up her little sock!

Because children delight us so with their surprising reactions to the world, Lenox has created Baby's First Shoes. A new work of art handcrafted in fine bisque porcelain and delicately painted by hand-an endearing portrait of childhood.

The irresistible appeal of the sculpture comes from its tremendous sense of life-from the child's golden hair to her wide blue eyes and button nose. The chubby arms and legs are perfect, down to the dimple in the knee. Her pretty dress and classic white shoes are superbly recreated in porcelain. And-a very special touch of Lenox®artistry-the shoe she's tossed away is a separate little sculpture.

THE MAKING OF HONEY, I SHRUNK THE KIDS

Rick Moranis, who plays the madcap physicist Wayne Szalinski in *Honey, I Shrunk the Kids* (which receives its world television premiere on The Disney Channel in September) is the host of this half-hour special that looks at the remarkable special effects that brought the movie to life. Moranis talks to the special effects people who demonstrate their mind-boggling techniques, and also takes a tour of cinematic history to demonstrate how the "shrinking technology" has improved over the

In August, The Disney Channel presents a George Stevens festival. Sunday Night Showcase presents the premiere of George Stevens: A Filmmaker's Journey. Written, produced and directed by George Stevens Jr., it's an unparalleled look at Stevens's life and times. (Families that may have older children watching, please note: the special includes footage from Stevens's personal collection, including World War II footage shot while he was part of the Army Signal Corps; that footage includes the liberation of the Dachau concentration camp.) The Best of Hollywood will also present four of Stevens's classics: *Alice Adams* (starring Katharine Hepburn) and *Annie Oakley* with Barbara Stanwyck (both from 1935); *The Diary of Anne Frank* (1959); and his epic adventure *Gunga Din* (Cary Grant, Victor McLaglen, Douglas Fairbanks Jr., and Sam Jaffe).

"George Stevens was quite unlike the conventional, overassertive director," Douglas Fairbanks

Jr. recalled in his autobiography *The Salad Days*. "One's first impression was that he was vague, dreamy and inefficient, but actually this was an effective mask behind which his brain ticked at the speed of light."

MAN OUT

With classic features and a maverick style, Charlton **Heston became** a Hollywood legend.

By Holly Macfee

ngled on a bookshelf that towers 15 feet to the ceiling is a collection of leatherbound books that date back 30 and 40 years. The rare manuscripts lean unassumingly next to history books, awards and objets d'art from abroad. The gold-leafed pages of these original scripts-Ben-Hur, El Cid, and The Greatest Show On Earth among them—trace the history of a legend in film.

"Handsome, aren't they?" a voice bellows from behind. Charlton Heston has entered the room, his colossal stature every bit as imperial as the day he was crowned with a laurel wreath after the victorious chariot race in Ben-Hur. Yet something is oddly askew. It is a relationship out of context: Charlton Heston-the actor who defined larger-than-life-is acting remarkably down to earth. The man who walked Mount Sinai is now sitting on a couch in khakis and bare feet.

Heston's presence is indeed a studied blend of reserve and informality. His speech is filled with anecdotes and quotes from poets and politicians (his favorite: Winston Churchill's "We cannot guarantee success, we can only deserve it"). But Heston's most striking quality is his extraordinary lack of selfimportance. "I am faintly uneasy with the idea of being a 'Star' or a 'Celebrity,'" he says. "I call myself a 'Public Actor.' It's more a Scot's term."

Heston has always maintained a strong emotional attachment to his roots in Scotland's Fraser clan, Macbeth, of course, is his favorite Shakespearean role, and he attributes both his traditional—and rebellious—nature to his Scottish heritage. In fact, the very notion of playing an ironhanded Scots patriarch attracted Heston to the role of James MacKenzie in The Disney Channel Premiere Film The Little Kidnappers. In that film, Heston portrays a rigid grandfather bitter over his son's death. He rules his family with fierce discipline-until his two grandsons arrive and awaken his long-buried sympathies.

"I've played Scots before of course," Heston points out. "But to a large extent I modeled MacKenzie on my great-grandfather, whom I never knew, but always heard stories about. He was a very firm Scot and resided over a household of seven women. He would come home from his office every day at the same time and would take his walking stick and press it on the doorbell until the door was opened for him.

Charlton Heston photographed by Greg Gorman

Heston played the adult Moses; his son Fraser played baby Moses in The Ten Commandents (1956).

"He was terribly fond at heart, but like my character MacKenzie, he held a fierce Scots-Calvinist exterior," Heston continues. "When my great-grandmother died, my great-grandfather arranged the funeral in meticulous detail, attended the ceremony impassively, then came home, took off his clothes and got into bed. He died four days later."

The role of James MacKenzie is just the type of character Heston is best known for: stalwart, independent and—most importantly—a man whose stern exterior conceals an enormous passion. Having spent his early years as an only child growing up in the timberland of northern Michigan, it's not surprising that Heston's penchant for self-reliance carried on into manhood. "My childhood was very isolated," he recalls. "I was thrown on my own resources-I wasn't wandering barefoot in the snow," he laughs, "but in terms of companionship there was literally no one my own age."

Even when he moved to Chicago at age 10 (after his parents divorced and his mother remarried), Heston still deemed himself a "backwoods hick." He had never used a telephone or crossed a busy street ("I didn't understand the signals and almost got flattened!"). He was still quite small and had never handled a

Heston says his career might have foundered had he not been an excellent horseman. He mastered the charlot for the race in Ben-Hur (1959).

football or a basketball, let alone played a team sport. Nor did chess and riflery make for brilliant popularity at school. Hence, he was continually forced to fend for himself.

"I really felt the odd man out," Heston remembers. "I went through the usual adolescent mania thinking I was the only one feeling that way. But happily, that feeling of differentness and the effect of my parents' divorce gave me the beginnings of the theater bug."

Like many young misfits, Heston took refuge in the movie houses watching Gary Cooper and Errol Flynn-and participating in his high school drama program. Performing offered him a chance to escape from his insecurity and hide behind the guise of a character. "People imagine that actors are natural show-offs," Heston explains. "But many actors come from rather shy, solitary backgrounds. Only comics, singers and dancers are presentational performers."

Fortunately, by the time Heston won a scholarship to Northwestern University's prestigious theater program, his scrawny schoolboy frame had developed into a physique of epic proportions. Heston had the drive to match his sizeand his power, grace and riveting gray-blue eyes commanded immediate attention.

It is fabled that when Heston first moved to Hollywood he by chance caught the eyes of famed director Cecil B. De Mille on the Paramount lot. De Mille turned to his secretary and said "Make a note of that man." A year later,

Heston shocks Betty Hutton with the frayed rope attached to her mouthpiece in the Oscar-winning The Greatest Show on Earth (1952).

De Mille cast Heston in the key role of the circus manager Brad in The Greatest Show on Earth (1952). The Oscar-winning picture launched Heston's career.

In the 1950s, landing a role in a Cecil B. De Mille film was a sizeable coup for a budding star. But few actors had the opportunity to work with the great filmmaker twice. Though De Mille was known for his distant, cordial manner, he took a liking to Heston. This created a small furor among performers who envied the young actor's exalted position as one of De Mille's preferred leading men. "I always called him Mr. De Mille," Heston protests, attempting to deflect the compliment. "For 40 years he was one of the best known filmmakers in the world-and that shook me.

"De Mille did have a rather formal manner and was meticulously polite with actors—and with extras-in a time when that was not common," Heston remembers. "For example, he would always schedule one of the big crowd scenes just before Christmas so the extras would have more money for the holidays."

Despite Heston's attempts to qualify his relationship with the director. De Mille wielded an enormous influence, both personally and professionally, on his life. When reminded of the prized statue of Andrew Jackson De Mille gave him after The Buccaneer (which De Mille

produced), Heston concedes with a smile, "I certainly owe him a great deal. I've always said if you can't make a career out of two De Mille pictures you better hang up your suit."

De Mille also directed Heston in the sweeping epic *The Ten Commandments*. Having played Moses, succeeded by the roles of Ben-Hur and John the Baptist in *The Greatest Story Ever Told*, Heston gained a reputation for being an authority on Biblical films. Heston claims his expertise and involvement in the genre no way matched the quasi-missionary fervor of a director like De Mille, who approached filmmaking with great religious zeal. "I'm a religious man but it's a private conviction," he elaborates. "I would hesitate to say something so grandiloquent as 'I played Moses and found God.' But you can't walk barefoot down Mount Sinai and feel quite the same again."

Heston's philosophy of performing has remained constant over the years: "I act because I like to play other people." Researching costume, makeup and the history of a piece is part of Heston's joy in—and his obligation to—the art of acting. "When you're playing biographical figures you have a responsibility to history," he notes. "I hope that doesn't sound too pompous, but if the man existed you have to do your

best to be him."

Heston offers his portrayal of Michelangelo in *The Agony and the Ecstasy*—among his most cherished performances—as an example of his extensive preparation in recreating a character. He meditated endlessly on the artist's sculptures and paintings—even going so far as to convince the Vatican to allow him to climb scaffolding erected in the Sistine Chapel.

Heston also donned a closely trimmed beard and wandered along the timeless streets of Florence. As to his other physical preparations for the role, Heston notes, "I resembled Michelangelo somewhat, but I had to use paint and little bits of rubber in my nostrils to make my nose appear as severely broken as his was." (Heston was also a good eight inches taller than the famed Renaissance artist.)

"I have always felt inadequate playing such extraordinary men," Heston adds, reflecting on the scope of his career. One senses the remnants of a misfit schoolboy in such a confession. Heston remains mystified at the breadth of his good fortune—having portrayed men far more grand than he ever imagined back in the deep woods of Michigan. In a gesture characteristic of his candor, he offers an anecdote from the filming of *The Agony and the Ecstasy:* "At the end of a grueling day on the set a British journalist asked me, 'Mr. Heston, don't you think you're a bit tall to play Michelangelo?" I replied, 'No sir, I believe I'm a bit small.""

THE LITTLE KIDNAPPERS

"The MacKenzies hold things unto themselves—which is a blessing and a curse," says Ruth MacKenzie (Patricia Gage) in a pivotal scene from *The Little Kidnappers*. She is speaking of the bitterness her husband James MacKenzie (played by Charlton Heston) harbors towards his own neighbors, Dutch settlers, over the death of his son Alec by a Dutchman in the Boer War in South Africa. Though the battle took place half a world away, MacKenzie is poisoned by grief—and he is determined to live with an abomination of *all* Dutch people.

What's more, his strong-willed daughter Kirsten (Leah Pinsent) ignites her father's fury when she pursues a budding romance with a local Dutch doctor (Bruce Greenwood). But MacKenzie's iron will is truly tested when Alec's orphaned sons Davy (Charles Miller) and Harry (Leo Wheatley) come to Nova Scotia to live on his farm.

Having recently lost their father, the young boys desperately search for something to call their own. So when they stumble upon an abandoned child, they keep their discovery hidden, lest they face the wrath of their grandfather. Thus begins a secret adventure—and a town crisis—which forces James MacKenzie to reconcile his feelings of loss for his son—and his love for his grandchildren.

ade in family entertainment heaven," was how Walt Disney Company chairman Michael Eisner described the company's new business agreement with Muppet creator Jim Henson when the two men appeared at Walt Disney World last August to announce their arrangement for working together. The quote made international headlines. News photos showed Kermit and Miss Piggy dancing a jig with Mickey and Minnie Mouse in the Florida sunshine. And the world smiled in approval, as though blessing the coming together of two good families. Now there would be new generations of delightful family entertainment.

That same world was shocked and saddened when it learned of Jim Henson's sudden death on May 16. But Henson's brilliance, his vision, and his commitment to creating new forms of family entertainment live on. Indeed, they provide a legacy—and inspiration—to build on.

The rhythm of something old, something new seems to have set the timing for Jim Henson's career all along the way. From the now-legendary moment when the teenage Henson cut up his mother's old spring coat to

make a frog—which won him a \$5-a-show after-school job as a puppeteer on a local television station—to his position as a father figure who oversaw a vast array of projects including not only film and television but also book publishing, music records and tapes, computer products and software, Henson had always held on to the best of the past, made it

agility into the future.

Jim Henson's Muppets have been seen on television for 30

even better, and moved with

years, appearing, for example, first on such variety programs as *The Steve Allen Show* and *The Ed Sullivan Show*, among others, then making it big with the launch of *Sesame Street* in 1969, and even bigger with *The Muppet Show*, which premiered in 1976. Three feature-length films followed: *The Muppet Movie, The Great Muppet Caper*, and *The Muppets Take Manhattan*.

Henson never limited himself to the Muppets, however. During the years before Sesame Street success, his work straddled two careers: at the same time as he was working with the Muppets on television, he was developing film ideas—"painting stuff, writing stuff," as he chose to describe them. So it wasn't surprising that Henson went off in a different direction to make The Dark Crystal, which premiered in theaters in 1982.

"Another world...another time...In the age of wonder" are the words that begin *The Dark Crystal*, a fantasy adventure populated with other-worldly creatures, operated by sophisticated mechanical technology. For his next non-Muppet movie Henson teamed up with the master of fantasy, George Lucas (*Star Wars*), to make *Labyrinth*, which combined yet another family of mechanical creatures with live-action, and which starred David Bowie. At the same time, however, he was also producing *Muppet Babies* and *Fraggle Rock* for television.

Meeting with Henson in his office in Burbank this past spring, eight months after announcing the deal with Disney, his easy-going manner gave no clue to the hectic schedule he kept and the projects he juggled. Likewise, his height—tall—and his graciousness made it difficult to remember that he was the voice of humble Kermit and had always been so.

In conversation Henson's eyes sparkled when he talked about the new—an idea, a gag, an intricacy of computer technology. "I love designing for the parks," he said. "It's a new medium. Just the concept of putting the Muppets into the parks as animatronic figures is such a natural. It's not like seeing people made into animatronic figures, which is not seeing the real thing, or seeing a cartoon character taken from a drawing. Our characters look like that already so we ought to be able to do wonderful versions of our own characters."

The first project is at Walt Disney World: a stage show, "Here Come the Muppets," which at the time of the interview was ready to go into rehearsal to open Memorial Day weekend.

JIM HENSON'S MOTHER GOOSE STORIES

How did black birds get into a pie, anyway? Does Little Bo-Peep get in trouble when she looses the sheep? Who was Miss Muffet?

Jim Henson's Mother Goose Stories, premiering on The Disney Channel in August, clear up the questions of the sometimes mysterious rhymes while teaching them to preschoolers. "On Sesame Street we did a lot of things with nursery rhymes," Henson said, "but they tend to go as parodies, so you have to know the rhyme before the parody works. I like the idea of a series that teaches the rhymes."

Many of the stories, loosely based on the book *Mother Goose in Prose* by L. Frank Baum (who wrote *The Wizard of Oz* and the other *Oz* stories), with illustrations by Maxfield Parrish, were directed JIM HENSON'S

by Henson's son Brian, 26. "It was great fun for me working with him," Henson said. "He's such a good guy—and he's good." (Brian also served as puppet coordinator on Henson's feature film Labyrinth and as second unit director on Teenage Mutant Ninja Turtles, for which Jim Henson's workshop built the characters' bodies.)

Jim Henson approached any project, big or small, by reaching for a mood, for a graphic design that created a world in which the characters lived and moved naturally. In *Mother Goose Stories* the mood is that of Parrish's illustrations, whose sweet-faced youths (played here by real children) and fairy-tale landscapes have entranced generations of readers young and old, and made Parrish one of America's most famous artists.

game we play is to beat the kite." It was competition Henson-style—always pitting himself against excellence, frequently his own.

But no amount of technological wizardry mattered, he said, unless it added to human qualities; it was a puppet's humanity that reached out and touched an audience. Originally, Henson's characters had been chunks of foam; later they were radio- or computer-controlled. But the performance was always more the performer's than the engineer's, Henson believed.

The Muppets are the essence of humanity, in a curiously literal sense. Henson was quick to explain why: Character traits and behavior were exaggerated in puppets, the writing was sentimental, and there was no actor to get in the way. "That's why people can identify with a puppet in a way they can't identify with an actor," Henson said. "Puppets are symbolic."

Puppets also have universal appeal, the same way animation does. They aren't a nationality or a religion—they are all different colors. "Puppetry is labeled a children's form," Henson said, "but we're writing for adult sensibilities. The total works for the whole audience."

The Muppet Show has an audience of 235 million people in 106 countries, half of them adults.

It was this philosophy about how to speak to a family audience that led commentators and critics to make comparisons between Jim Henson and Walt Disney. "You can be adult without being offensive to children," Henson said, pointing

With major stage settings and lighting, video projections, and six or seven different casts, a lot of last-minute work remained.

Another Henson project, The Muppet Studios, is set to open next year. It's a whole area within The Disney-MGM Studio Tour, and will include a state-of-the-art 3-D Muppet attraction, restaurants, and a ride, where the Muppets give their own versions of how movies are made. "It's the flip side of the rest of the Disney-MGM Studio, which tells you how movies are really made. We're doing it in the most stupid way possible," Henson laughed, "using lots of misinformation." For example, a *Dr. Zhivago* snow scene has Kermit and Piggy in a plastic ball that's turned back and forth; and horses in a western make the sound of galloping by wearing coconuts on their hoofs.

"With the 3-D attraction, we're endeavoring to do the best," Henson said. "Last week I saw a couple of the 3-D shots of Waldo, a new computer-generated character created for *The*

Jim Henson Hour last year. I think they may be the best 3-D shots ever made, better than the kite," he said, referring to the kite shot in Magic Journeys, a 3-D attraction at both Disneyland and Walt Disney World. It was the best 3-D shot ever made, according to Henson. "Every kid reaches out for that kite," he said. "That's what we're always competing against. The

Henson never limited himself to just the Muppets. Witness his 1986 film Labyrinth, which he directed (and George Lucas excutive produced). David Bowie played the King of the Goblins in a film in which humans co-starred with Henson creations.

Henson's first non-Muppet major project was the 1982 film Dark Crystal, a fantasy-adventure film that was populated with otherworldy creatures operated by sophisticated technology.

Miss Piggy, Mickey Mouse, Walt Disney Company chairman Michael Eisner and Jim Henson at
Walt Disney World last August at the announcement that Henson was joining forces
with Disney. The news made headlines around the world as Kermit
and Miss Piggy joined Mickey and Minnie in an

out that all movies before 1950 would now be G-rated, but they were all adult movies.

Henson also believed that entertainment could have educational values underneath. It should be entertainment first, and humorous; it should not be a statement. "But it should come from a thought process of substance."

Henson worked for and valued the substance beneath the fun. In talking about his characters, he said, "They're each a little part of my soul or someone else's. Like anything any artist puts forth, there is always a chunk of the man [or woman] involved. They're what we use, like a painter uses paint."

Jim Henson was the voice of Kermit the Frog. He had said in the past that Kermit was not a cover for him or an alter-ego, that the frog didn't say things Henson wouldn't say otherwise. The man remained true to the direct, down-to-earth voice of the frog. Kermit was a part of Jim Henson's soul.

impromptu jig to celebrate the occasion.

HEY CINDERELLA!

Once upon a time, Jim Henson created *Hey Cinderella!*, a rendition of the classic fairy tale as richly comic as Walt Disney's version was fanciful and beautiful.

Henson's rollicking tale, with a cast of actors and Muppets both, was a first in Henson history. It was the first television special Jim Henson created. It was the first time he directed a production. The cast includes the first big shaggy Muppet character—Splurge, a purple beast.

It was also the occasion of Kermit's becoming a frog—body and soul. He'd had a soul, and an abstract form, but here in the prince's garden, the audience saw him for the first time as a total frog, spindly legs and all.

And Kermit is proud of who he is. He resists the fairy godmother's entreaties to become a fancy coachman and drive Cinderella to the ball: "I don't want to be turned into no coachman. I like being a frog. It's all I know...I'll do it [drive the coach], provided I do it as a frog."

We wouldn't want Kermit any other way.

Loving

Instinctively, the baby girl wraps her tiny fingers around her mother's as she takes an eager step. Mother glances down, aware that this moment will pass all too quickly, yet will live in her memory forever.

In "Loving Steps," artist Sandra Kuck designs her first porcelain collector's dolls in a new collection produced by Reco International. Delicate hand-painting enhances Mother's expression of serenity and her little one's lively spirits. Baby's tiny hands fit reassuringly into Mother's as a symbol of their unity.

Lavish use of lace, flounces, satin ribbons, and petite fabric flowers capture all the grace of Victorian costuming.

Recommended by Ashton-Drake, "Loving Steps" is certified Premiere Grade—your assurance of superior artistry and craftsmanship. At \$125.00, "Loving Steps" is an heirloom-quality issue of exceptional value today, and may be a wise investment for the future.

Admire "Loving Steps" in your home...but please act promptly The edition closes in 1990, after which no more will ever be made. Order now.
